The SIM card page

The following are displayed by default. •····

Search

On the SIM card page, field search is always visible. The "search" box, at the top, searches in all visible fields.

"Clear search" - Reset

If you have made one or more searches, you can use the clear search button to reset all searches and automatically return to the simcard page.

"Shift" - marking your SIM cards

By holding down the "shift" key on your keyboard, you can select your SIM cards at once:

- You select the first SIM card.
- Then select the last SIM card you want to work while the "shift" key is held down.

The remaining SIM cards are now automatically added to your work list.

"Edit" details and editing SIM cards •••••••• To view details or edit SIM card data, click on the S card line / row or select "Edit".

Edit fields

s •-----

In the SIM card details, "Fields", you can edit the fields marked with green.

You can go back to the SIM card list by clicking the arrow next to the SIM card's phone number.

"Activate" - SIM card activation

Select the number of SIM cards you want to activate, and then click the "Activate" button. A new screen with a short summary opens. You must now confirm the desired activation.

Explanation of icons

Green WIFI = Active • Gray WIFI = Not enabled Green pause = Suspended / blocked Red X = Terminated. Green pause + red X = Waiting for termination / termination period in progress.

Usage

"View consumption" - see consumption for one or more SIM cards.

For the SIM cards you choose, the number will be displayed here.

To view the consumption of the selected SIM card, click "More" under "View consumption". A new page automatically opens for the selected SIM cards.

Your selected SIM cards, "selected SIM cards", is now opened under "consumption".

"Date range" lets you choose the period for which you want to see the consumption.

Sim cards that have no usage for the specified period will not appear on the list.

SimService A/S							
Notwork status	Activation data	Project					
Available Active Suspended Terminated	Date shortcuts Select From (start of day) To (end of day)	Data med GPRS. SimService M2M Public	Filter				

Consumption list:

Consumption is shown in 3 levels:

- 1) Summary: The sum of all sim cards for the selected period.
- 2) SIM cards: Total per sim card for the selected period.

To see detailed consumption, click on the SIM card, in list 2, where 3 will be displayed.

To view consumption for a particular consumption type, select the desired "SMS" or "Data" tab. •····

To return to the overview, click the arrow at the top left corner.

Create an event/Alert for Consumption

- Select Events in the top tab of SimOnline •······ - Press the - Create consumption control - report button
- Type in a report name (This will be on the text of the alarm mail that will be sent out)
- Select which project or selection the Event/Alarm is to be connected to.
- Select one of the SimOnline fields that has to be included in the report. (eg. Comment box)
- Type "check on" to include domain name and project name.
- Select consumption and then fill in the amount of Data, SMS or whatever comsumption limit/usage you want the alarm to send a notification. (By data, a calculator will appear to help calculate the correct bytes)
- Select Period (Since yesterday or from the beginning of the month)
- Type in recipients and write mail to the person who has to receive the alarm
- Press Review and create- and the event / Alert is started.
